It can also alert you to new emails in your Yahoo Mail or Yahoo Personals account, or when you have an upcoming event recorded in your Yahoo Calendar. Yahoo Messenger offers firewall support, a standby mode that minimizes programs until an Internet connection is created, the ability to store and print your conversations, and a pressurized interface that provides quick access to your favorite stocks, news, and sports scores. The new version of Messenger was redesigned with new features. You can share photos instantly, send animated GIFs, and even unsub send messages. It's available for Android, iPhone, desktop, and on the web through your web browser. Older versions of Yahoo Messenger are no longer supported. To continue using YahooMessenger, please upgrade to the latest version. What are the new features? Enhanced photo sharing – You can now share multiple high-resolution photos at once, and swipe to see them in the photo carousel. Unsend - Regret something? Just tap and select Unsend to remove it from the conversation. Likes - Tap a message or photo to let the sender know you like it. Animated GIFs - Express yourself with animated GIFs from Tumblr (available on Android, iOS, and the web). Offline and low connectivity modes – Anything you share will be posted once you're back online. Note: Yahoo Messenger will no longer be supported after July 17, 2018. Until then, you can continue to use the service normally. After 17 You will no longer be able to access chats and the service will no longer work. Also Available: Download Yahoo! Yahoo Home is a web add-on that makes Yahoo accessible to its users by automatically setting their browser home page to Yahoo. With this, you don't have to always open new tabs and Yahoo.com to visit websites. All the news updates and other features that Yahoo conceived are now within reach with Yahoo Homepage.Be updating Yahoo Home not only serves as a search engine, but also acts like a news website where you can check for the latest events around the world. Setting it up in your browser will keep you updated without fail, even if you accidentally search for news. Just opening a new tab will show you your new Yahoo Home, and everything you might need to know. It features news about sports, lifestyle, politics, showbiz, finance, and entertainment. You can also check for fast weather and temperature updates, as well as the world-invested sports tournament scoreboard. Check your emailYahoo Homepage also gives you easier access to Yahoo Mail. Just by clicking the icon in the upper right corner of your screen, you can see not only your email but all the features of Yahoo Mail. This way, you can read and send email, draft, and organize your messages. The app will also give you notifications if you get a new email. YahooYahoo Instant Homepage only provides a way for users to access Yahoo features quickly and easily. The add-on comes with an icon that can be placed on your browser's toolbar, giving you other ways to access it besides opening a new tab. This extension is quickly installed and will not be forced during your internet browsing session, so no need to worry about installing Yahoo Homepage in your browser. Very few system resources will be required This program can be wiped out if another homepage is desiredBuy conflicts with other browsersYahoo has been the victim of several security breaches in the past
